

WEALTH.

If they only could, many rich men would erase the W in wealth and write H in its place, and so change wealth into health. It's the saddest thing about riches that in acquiring them men often ruin their health and at their prime are doomed to live "perked up in a glistening grief and wear a golden sorrow."

The trouble is generally with the stomach. In the rush for riches there's been no time for regularity, no consideration of right food. The stomach and other organs of digestion and nutrition become diseased and then begins the bitter and varied sufferings of the man with "stomach trouble."

Yet this condition can be cured. The stomach and other organs of digestion and nutrition, can be restored to a normal condition of sound health. Thousands testify that Dr. Pierce's Golden Medical Discovery, strengthens the stomach, normalizes the nerves and purifies the blood, that it breaks the bonds of the dyspeptic, and makes him a healthy, happy man. No alcohol, whisky or other intoxicant is contained in "Golden Medical Discovery."

It was a sufferer from what the doctors called indigestion, but after trying several eminent physicians failed to get a cure, writes Mr. Frank Bertie, A. O. Box 475, Independence, Jackson Co., Mo. "Some of my symptoms were soreness in pit of stomach, belching, tired feeling, constipation, some times sickness would extend to bowels. Some one recommended me to take Dr. Pierce's Golden Medical Discovery, which I did, and after taking only a few bottles of 'Discovery' and your 'Pleasant Pellets' can say I derived more benefit from them than from any other medicine I ever tried. I began to gain in flesh from the start. Have recommended it to others and will continue to do so."

Dr. Pierce's Pleasant Pellets do not become a necessity to the system they have relieved of accumulations and obstructions.

That some fellows get rich, there's no mistake. Why shouldn't they with the profits they make. On drugs, prescriptions, on powders and pills. And you plunkin' cash right into their tills? But save these profits, you can if you will. Your drug shopping do with your

FIRST WEEK OF SCHOOL.

The first week of school is over. The teacher has made the acquaintance of all new scholars; has assigned his classes and is ready for business.

The scholar has had his seat assigned. Has secured all the necessary books, etc., and to all appearances is also ready for business. But is he? Can he or she study all their lessons either at school or at night at home without that dull headache just above the eyes, and sometimes in the back part of the head; that nervous, disagreeable feeling, as if they wanted to tear up the books and get away from study entirely? Astigmatism will cause just such trouble. Astigmatism is the condition of the eye in which the cornea is not symmetrically spherical. Instead of the projecting and visible portion of the eyeball having a surface like that of a glass marble, it may resemble that of a spoon, where the curvature in one way differs from that in another way, and the rays of light will consequently meet at different focuses. With an eye thus formed, the lines are seen much more clearly in one direction than in another. For instance, the figures on the clock dial will be of different degrees of visibility. The horizontal symbols for nine and three may be clearly seen, while the perpendicular symbols for six and twelve may be indistinct or invisible? Astigmatism may occur in any eye—the otherwise normal eye, the near-sighted eye, the far-sighted eye, and if not remedied by glasses the strain will result in further impairment of vision. You can have your eyes tested free of charge.

H. P. Lorbach, scientific optician, at the Norwood Hotel, until Saturday, students. The number of faces upon 1:30 to 4:30 P. M.; makes no charge for consultation and examination.

Dan Spangler, operator at the B. & O. freight, says:

Marietta, O., Sept. 3, 1901.

This is to certify that on April 11, 1901, I had severe eye trouble, a curtain sometimes seemed to be pulled down over the sight of my left eye, which for the time being would destroy the sight of it. I went to Dr. H. P. Lorbach, scientific optician, at the Norwood Hotel, and after a most thorough examination of my eye found that I had detachment of the retina, a piece of which having broken loose, was floating in the vitreous humor, causing the curtain effect, and was due to severe use I had subjected my eyes to without glasses. As I had a very high degree of myopia—astigmatism, which he corrected by the proper glasses, which I have worn almost constantly since and have given me entire relief and perfect satisfaction. I certainly can recommend the doctor to any one needing a competent man in his profession.

Hulbert—Stacey.

The marriage of Mr. Archie Hulbert and Miss Mary Elizabeth Stacey, the pretty and accomplished daughter of Mr. and Mrs. J. E. Stacey, was solemnized at the home of the bride in Rainbow Tuesday afternoon at 3:30. The ceremony was performed by the groom's father, the Rev. C. B. Hulbert, of Hudson, Ohio. The bride and groom left on the evening train for a short wedding trip after which they will make their home for the present at Hudson, O. Among those present from abroad were Reg. Henry Hulbert and wife, of Cleveland, Mr. and Mrs. Hulbert, of Hudson, Ohio, Mr. and Mrs. Fred Moore, of Brooklyn, New York.

The Theatre.

New comes the much heralded John W. Vogel's Big Minstrels, and our small world of music and fashion is attracted to the inspiring event. This is a brief engagement Thursday evening being the only performance in this city, the advance sale indicating a social and financial triumph. Gracefully and graciously do our lovers of music arise to the occasion. Anticipation runs high and ample appreciation of the artistic superiority of the performance, is in evidence on every hand. Arthur Rigby, Bert and Frank Leighton, Chas. Gano and A. L. Tracy alone could draw sufficiently well to fill an ordinary play-house, for their comedy is of the infectious kind, and their efforts have ever been appreciated. But the real interest centers in the vocal department, the names of Harry Leighton, Clarence Rummel, Thos. Merrick, Hugh Brown, Percy Reed and John T. Moore inspiring great enthusiasm.

The nerve, daring and grace of the O'Brien troupe of acrobats; the harmonic instrumentation of McCoy and Gano; "Ragtime," a new idea in acts of The Great Roulette pantomime clown juggler are all calculated specialties serving to create an unusual degree of interest, their refined and finished execution serving to complete what promises to be the most acceptable program ever seen with an organization of this kind.

UNEASINESS

Reflected in Stock Market
Over Money Outlook.

By Associated Press.

New York, Sept. 10.—Some uneasiness was reflected in the stock market today over the money outlook but it was related with a degree of success and was offset by other features. The market was palpably artificial, owing to the continued influence of precautionary measures put in force after the attempted assassination of the President. These consisted of free buying on recessions, with the purpose of stemming the tide of reaction and of lending money freely to keep down the rate. The consequence was a constantly varying movement up and down which gave the market an exceedingly irregular appearance.

The closing was heavy and extreme advances were much curtailed, in some cases entirely wiped out. Railroad bonds were nominally active and firm. U. S. 2's and new 4's advanced 1/2 per cent.
